Hello [REDACTED]
thank you for sharing the wire frame, it looks good to go me .
one comment, would it be possible to add feature where I can see all the saved past meals (of previous weeks) and be able to download the saved meals.
Thanks again
Mouna

Good afternoon Mouna,
after using and running through the product, can you please provide some feedback guided with the questions below.
Is there a place for you to upload csv meal files? If so, does it operate to your desired extent?
Does the product provide unique meals for each day of the week?
How was the user friendliness ?
How is the menu regeneration ?
After generating a few meals, do you like the meals provided and would you use them?

Please answer thoroughly and provide ratings of 1-10 to all the over all features.

after using and running through the product, can you please provide some feedback guided with the questions below.
Is there a place for you to upload csv meal files? If so, does it operate to your desired extent?yes there a field where I can upload a csv file. rating :10/10
yes the CSV file operate as expected and transfer the meal to the DB
Does the product provide unique meals for each day of the week? yes rating: 8/10,only being able to provide only one category to each meal , limit the menu generation capabilities
How was the user friendliness ? user friendliness and usability is fine , yet would of appreciate to work on the look and feel and the display to be more attractive rating 7/10
How is the menu regeneration ?menu regeneration good, would like to see the ability to regenerate meals for specific days rather than regenerate for the whole menu
After generating a few meals, do you like the meals provided and would you use them? definitely
